

A5504 Vacuum mixer MIX

Product group	Equipment to blend in plasters, investments, alginates and silicon compounds
Main features	⇒ Wall-mounted unit extremely compact in size ⇒ A practical stand for benchtop use is available upon request (this new bench stand is designed to incorporate a vibrator MINIEXPORT) ⇒ Mixing speed at 380 rev/min assuring consistently high quality model plaster with no risk to raise splash of liquids or fumes of dust ⇒ Electronic programmable timer to adjust the mixing time ⇒ Vacuum circuit independent from the mixing control thus operating the vacuum only provided the compound has already been absorbed in the liquid ⇒ Control of the suction power by means of vacuumeter ⇒ Ability to use bowls in different sizes from 200cc to 2000cc
Gear motor	Gear type with high gearing-down ratio
Speed of rotation	Fixed at 380 rev/min
Direction of rotation	Clockwise
Mixing time	Up to 3 min
Vacuum pump	Internal, piston-type with no lubrication (dry)
Vacuum level	0.85 BAR
Line voltage	230v AC 50/60 Hz
Absorption	140W
Width	190 mm
Depth	220 mm
Height	400 mm (with the 500cc mixing bowl) – 650 mm if fitted on bench stand
Net weight	8.5 Kg – 12.2 kg with the bench stand
Gross weight	10.0 Kg – 14.0 kg with the bench stand
