

5 REASONS TO BUY ideastudio

1 INNOVATION: THE PURSUIT OF PERFECTION

ideastudio offers a All-in-One finishing solution for the Dental Cabinet, and it is engineered to bring precision to your surface preparation, ensuring that your bonding is strong as your craftsmanship.

2 ideastudio: THE ALL-IN-ONE SOLUTION

Quick and easy installation. Light and portable device. Blasting chamber made of transparent methacrylate. It features an interchangeable front screen and access to the inside via rubber membranes.

3 BUILT-IN PNEUMATIC EXTRACTION

ideastudio features a built-in extraction system entirely pneumatic (operating according to the Venturi effect) derived from the Dentalfarm patented W.A.F.I.S.. It doesn't have parts subject to wear, no power supply needed.

4 PRESSURE BLASTER WITH "EASY" TANK

The recognizable Dentalfarm PRESSURE BLASTER, assembled on a stainless steel support (with instant stop, filter, pressure reduced and pressure gauge and a pneumatic foot-control), assures consistency across every case.

5 DESIGN SERVING TECHNOLOGY

ideastudio incorporates technology solutions with the Italian eye for aesthetics. Its compact size and transparent design make it a piece that blends seamlessly into any settings.

DENTALFARM ideastudio

SPECIFICATIONS

- Height: 330 mm. Width: 300 mm. Depth: 330 mm.
- Net and Gross Weight: 4 kg - 5 kg

“Experience: the first step towards innovation. During the course of its history, Dentalfarm has been manufacturing unique sandblasters and micro-blasting systems thanks to the high quality, refinement, reliability and advanced technical solutions which have often been identified as reference starting point for the entire dental field. Thanks to this experience, Dentalfarm introduces “ideastudio”, the All-in-One finishing solution that allows you to obtain a cleaner, optimized bonding surface every single time.”
